

Life-changing radiation-shielded products. *Invest in your health today! Get it before it's too late!*

- WoWe® technology with industry-standard radiation-shielded material lines the products
- Different types and layers of materials block and reduce radiation absorption by your body
- Limit harmful health effects of absorbed radiation, such as cancer, infertility and neurological and learning disorders such as ADHD, Electronic Screen Syndrome and Electro-(hyper)sensitivity.

WoWe® radiation-shielded aprons

- Trendy South African Shweshwe material patterns on one side with bright colours on the other side
