

EMF radiation high-density protective products To improve your health and wellbeing

Do you want to feel healthy and well? Do you want to protect and care for your loved ones against continuous, unnatural and harmful EMF radiation coming from cell phones, cell phone towers, Wi-Fi, smart meters, and other wireless devices such as Augmented Reality (AR), Virtual Reality (VR) and 5G.

ORDER NOW! PREVENTION is BETTER than CURE!

- Contains WoWe® technology with industry-standard high-density EMF radiation protective layer between layers of other types of material, depending on the product design, to provide the highest protection.
- Different types of materials such as layers of either leather, cotton or fleece materials are used on both sides of the EMF high-density protective layer to improve effectiveness and comfort.
- EMF protective products (WoWe®) reduce the negative health and wellness impact of low energy non-ionising radiation on our mind and bodies.
- EMF protective products (WoWe®) reduce the high risks of developing cancer, infertility, neurological and learning disorders, e.g., ADHD, Electronic Screen Syndrome and Electro-hypersensitivity (www.emfscientist.org and www.technolifewise.org).
- Proudly made and tested in South Africa

WoWe® EMF RADIATION BEANIE OR PROTECTIVE CAP

- Fleece material (for beanie) and blue or green and white cotton (for cap) are used to cover the industry-standard high-density EMF protective material on both sides to protect your brain from harmful EMF radiation
- Shields up to 95+% of EMF radiation coming from e.g. cell phones, Wi-Fi routers and cell phone towers, smart meters and other digital wireless devices

Protective Beanie

Small: 540 mm x 220 mm Regular price **R 437**

Large: 600 mm x 220 mm Regular price **R 479**

Protective Cap

One size: 550 mm x 120 mm (adjustable to 600mm)

Regular price **R 437**

WoWe® EMF RADIATION BODY SHIELD

- Different colours and combinations of cotton and denim material are used on both sides of the high-density EMF protective layer material
- Protect your thyroid and parathyroid gland, your vital organs such as heart and lungs, and stomach with digestive and reproductive organs as well as upper limbs
- Reflect at least 90% EMF radiation away from your body to minimise absorption by the cells on your skin and in your body
- Reversible, durable and versatile
- Different sizes available (Other sizes can be made to order)

Small: Length – 65 cm Regular price **R 547**

Medium: Length – 72 cm Regular price **R 597**

Large: Length – 80 cm Regular price **R 687**

X-large: Length – 95 cm Regular price **R 747**

WoWe® EMF RADIATION LAPTOP or TABLET SHIELD

- Different colours and combinations of trendy canvas material covers the EMF high density protective material on both sides
- Insert underneath your laptop or tablet when working on your lap – only for short periods because you are not supposed to work on your lap with your mobile computer at all
- Insert between your laptop and body when working on your laptop or tablet on a desk
- Reflect at least 88% EMF radiation away from your body to minimise the absorption by the cells in your body
- Reversible, durable and versatile
- **NB! Note:** If only you work near the router, you should use and plug in a network cable directly into the router box. This will significantly reduce your EMF exposure.

One size: 400 x 300 mm Regular price **R 387**

WoWe® EMF RADIATION POCKET SHIELD

- Brown pig skin leather - on one side. Special protected material on the other side of the high density EMF protective material
- Insert in any pocket e.g. trousers, denim pants, jackets
- Just slide your phone on the outside of the shield to reflect at least 42% EMF radiation away from your body
- Durable and versatile

One size: 145 x 100 mm Regular price **R 217**

WoWe® EMF RADIATION LEATHER CELL PHONE POUCHES

- Available in different sizes
- Durable black leather
- Phone in pouch functions normal as the protective layer is only on one side
- Reflect at least 95% EMF radiation away from your body

Medium: 155 x 90 mm Regular price **R 747**
Large: 170 x 100 mm Regular price **R 897**

WoWe® EMF RADIATION MATERIAL CELL PHONE POUCHES

- Durable denim material covering the shielding material
- Phone in pouch functions normal as the shielding layer is only on one side
- Reflect at least 71% EMF radiation away from your body
- A cord has been added so that you can wear it around your neck or next to your body.

One size: 170 x 100 mm Regular price **R 347**

WoWe® EMF RADIATION MOMMY AND BABY BLANKET

- Fleece material on one side and light cotton on other side cover the high-density EMF protective material
- Protect your unborn baby by covering your belly with the blanket
- Protect your baby while awake or sleeping
- Reflect more than 90% EMF radiation away from your body
- Reversible, versatile and durable

One size: 1000 x 650 mm Regular price **R 797**

IMPORTANT NOTE!

- A 5% donation is made to the TechnoLife Wise Foundation for each regular priced item that is sold.
- The effectiveness of the EMF protective products is measured with a Cornet ED-88T Plus Electrosmog meter.
